Experience

UI / UX Design, CURTUUM Mobile Application

July 2024 – August 2024

- Designed user interfaces and user experiences for a mobile application tailored to post-heart-surgery patients, ensuring ease of use and accessibility.
- Developed a sleep tracker feature using Figma, enabling real-time monitoring of patient sleeping angles and triggering alerts to ensure patients remain in a safe position.
- Focused on user-centric design to prioritize patient safety and comfort, minimizing risks associated with improper sleeping positions.
- Collaborated with stakeholders to align design features with medical safety requirements and user needs.

UI / UX Design, Nova tech website

October 2024

- Designed an interactive website for exploring 3D visualizations of exoplanets, enhancing user engagement through dynamic and intuitive interfaces.
- Developed features for sharing detailed information about exoplanets, ensuring a seamless balance between visual appeal and educational content.
- Focused on usability and responsiveness to create an engaging and accessible experience for diverse audiences.
